MassHealth Advocacy Guide

About MLRI

The Massachusetts Law Reform Institute is a statewide legal advocacy and support center. Our mission is to represent low-income people, disabled people and elders in their struggle for basic human needs, to defend against policies and actions that harm and marginalize people living in poverty, and to advocate for systemic reforms that achieve social and economic justice. Our activities include advice, litigation, policy analysis, research, technical assistance and public information.

Acknowledgments

MLRI thanks the many health care advocates in Massachusetts who work to preserve and protect access to health care for low-income people. Thanks also to the colleagues who reviewed one or more sections of this Guide and to MCLE for editing and preparing the Guide for publication.

This Guide was written by Victoria Pulos of Massachusetts Law Reform Institute.

Note on scope of Guide: A detailed description of the financial eligibility rules for nursing facility care is beyond the scope of this Guide. For more information on this topic, see *Estate Planning for the Aging or Incapacitated Client in Massachusetts* (MCLE, Inc. rev. ed. 1998 & Supp. 2002, 2005, 2007).
