

If you don't need your P-EBT benefit, your neighbors do.

Pandemic EBT is a short-term food assistance benefit to help Massachusetts families who lost access to free and reduced-price school meals during the pandemic (in addition to school meal pick up sites).

P-EBT is also an economic stimulus for the state and local economy, just like the federal Economic Impact Payments sent to millions of Massachusetts families.

If your household got a P-EBT card but does not need food assistance, you can use your P-EBT benefit to help your community:

1

Buy groceries and donate that amount in cash to your local food pantry or food bank, or buy and donate food items from your local food bank's "wish-list."

2

Support local grocery stores and farmers markets that accept EBT.

NOTE: If you lost or never got a P-EBT card for your child, call DTA: 877-382-2363 to request a replacement card.

For more information, visit Map-EBT.org.
