

SNAP Outreach

Partner Reimbursement Project

Project Description & Goals

The **SNAP Outreach** Partner Reimbursement project is a collaboration between the Department of Transitional Assistance (DTA) and the UMass Chan Medical School to expand participation in SNAP and improve nutrition and economic self-sufficiency of SNAP clients.

Does Your Organization:

- Assist clients with applying and recertifying for SNAP benefits
- Support clients in resolving issues related to their SNAP benefits
- Raise awareness of SNAP benefits within your community

If so, you may be eligible to become a SNAP Outreach Partner and qualify for federal reimbursement.*

Why Participate?

- Maximize dollars already spent on outreach/application assistance
- Expand the capacity to serve more individuals
- Introduce a new flexible funding stream into your organization that can cover an array of costs
- Gain access to the DTA Connect Provider Portal to better support the families you assist
- Partner directly with your own DTA community liaison

Project Eligibility

Outreach activities must be funded through allowable sources that are not federally matched elsewhere.
