IN THE MATTER OF)

O. O.)

FH # 2017-0143)

HEARING DECISION

Procedural Information

The Appellant in this Fair Hearing is Ms. O.O. (hereinafter “the Appellant”). The Appellant appeals the Department of Children and Families’ (“the Department” or “DCF”) decision to support allegations of neglect pursuant to Mass. Gen. L., c. 119, §§ 51A and B.

On November 28, 2016, the Department received a 51A report filed by a mandated reporter, alleging neglect of N (“N” or “the child”) by the child’s former daycare provider, Ms. M.O., and sexual abuse of the child by Ms. M.O.’s husband, Mr. W.M.¹ Based on information obtained during the 51B response, allegations of neglect of the child by the Appellant were added and subsequently supported by the Department. (Pursuant to DCF Protective Intake Policy) The Department informed the Appellant of its decision and of her right to appeal the Department’s determination. The Appellant made a timely request for a Fair Hearing under 110 CMR 10.06.

The Fair Hearing was held on March 23, 2017, at the Department of Children and Families’ Worcester West Area Office. All witnesses were sworn in to testify under oath. The record closed at the end of the hearing.

The following persons appeared at the Fair Hearing:

Anastasia King
Ms. O.O.
Ms. M.B.
Mr. T.B.

Administrative Hearing Officer
Appellant
Appellant’s Attorney
DCF Response Worker

¹ Allegations of neglect of the child by Ms. M.O., and allegations of sexual abuse of the child by Mr. W.M. were supported by the Department. However, Ms. M.O. and Mr. W.M. are not parties to this appeal. (Exhibit 3, p.11)

In accordance with 110 CMR 10.03, the Administrative Hearing Officer attests to impartiality in this case, having had no direct or indirect interest, personal involvement or bias in this case.

The Fair Hearing was recorded pursuant to DCF regulations 110 CMR 10.26.

The following documentary evidence was entered into the record for this Fair Hearing:

For the Department:

- Exhibit 1: 51A Report – dated November 28, 2016
- Exhibit 2: 51A Report – dated December 12, 2017²
- Exhibit 3: 51B Response
- Exhibit 4: Copy of Daycare Schedule

For the Appellant:

- Exhibit A: 15 Color Photographs
- Exhibit B: Appellant's Timesheets – 48 pages
- Exhibit C: Nine Letters of Support
- Exhibit D: Appellant's Memorandum of Law

Pursuant to 110 CMR 10.21, the Hearing Officer need not strictly follow the rules of evidence.... Only evidence which is relevant and material may be admitted and form the basis of the decision.

Issue To Be Decided

The issue presented in this Hearing is whether, based upon the evidence and the Hearing record as a whole, and on the information available at the time of and subsequent to the response, the Department's decision or procedural action, in supporting the 51A report, violated applicable statutory or regulatory requirements, or the Department's policies or procedures, and resulted in substantial prejudice to the Appellant. If there is no applicable statute, policy, regulation or procedure, the issue is whether the Department failed to act with a reasonable basis or in a reasonable manner, which resulted in substantial prejudice to the Appellant. For a decision to support a report of abuse or neglect, giving due weight to the clinical judgments of the Department social workers, the issue is whether there was reasonable cause to believe that a child had been abused or neglected and the actions or inactions by the parent(s)/caregiver(s) place the child(ren) in danger or pose substantial risk to the child(ren)'s safety or well-being; or the person was responsible for the child(ren) being a victim of sexual exploitation or human trafficking. (110 CMR 10.05 DCF Protective Intake Policy #86-015, rev. 2/28/16)

² On December 12, 2016, the Department received a 51A report alleging neglect of A ("A") by Ms. M.O. and sexual abuse of A by Mr. W.M. However, the allegations were not supported by the Department and did not pertain to the subject child. (Exhibit 2, p.3; Exhibit 3, p.11)

Findings of Fact

1. The subject child of this Fair Hearing is N ("N" or "the child"); a female child who was six years old at the time the 51A report was filed on November 28, 2016. (Exhibit 2, p.1)
2. On November 28, 2016, the Department received a 51A report filed by a mandated reporter, alleging neglect of the child by the child's former daycare provider, Ms. M.O. ("MO" or "daycare provider"), and sexual abuse of the child by Ms. M.O.'s husband, Mr. W.M. ("WM" or "the provider's husband"). The reporter stated that an e-mail and phone call were received by the child's biological mother, Ms. A.V. ("AV" or "the mother"), stating that during that past weekend, the child disclosed sexual abuse by WM while she was attending MO's daycare. According to the mother, the child last attended the daycare three years ago. The child told the mother and the child's father, Mr. S.K. ("SK" or "the father"), that WM asked her to "bite him there". The child stated that she did it, but added that she did not like doing it, did not like the taste, and did not want to get germs. The reporter further stated that it was unsure how in-depth the parents questioned the child and that police had been notified. (Exhibit 1, p.3; Testimony of RW)
3. The 51A report was screened as a Non-Emergency Response and assigned to DCF Special Investigation's Response Worker, Mr. T.B., ("Response Worker" or "RW") to complete a 51B Response. (Exhibit 3, p.1)
4. The Appellant is MO's former sister-in-law and had been employed by MO as her daycare assistant for 14 years. (Exhibit 3, p.3; Testimony of Appellant)
5. MO's home based licensed daycare through the Department of Early Education and Care ("DEEC"). The child attended the daycare and the Appellant was employed as an assistant at the daycare at the time of the reported incident. (Exhibit F; Testimony of RW; Testimony of Appellant). The Appellant was deemed a "caregiver" as defined by Departmental regulation 110 CMR 2.00.
6. MO usually cared for the infants at the daycare. The infants were usually in a space separate from the other children, though that not preclude all children being present for some activities. At those time both MO and Appellant would care for the children. (Exhibit 3)
7. The child began attending MO's daycare when she was three and a half months old and remained at the daycare until she began kindergarten at the age of five. (Exhibit 3, p.3)
8. On December 5, 2016, the mother and father reported that two weeks before, the child blurted out that WM had made her "bite him where his pee comes out". Before the child's disclosure, the mother and father had never had any concerns regarding the level of care the child received at the daycare, and the child never appeared uncomfortable or unwilling to attend daycare. (Exhibit 3, p.3)

9. A SAIN³ interview with the child was conducted on December 5, 2016. The child reported that when she was three or four years old, she and her friend "A" were sexually abused by WM in nap room by the bathroom entry. The child stated that WM would open his pants, take out his penis, and instruct the child and "A" to bite him there. The child further stated that MO would walk by but did not say anything, although added that she did not know if MO saw anything. Although the child was unable to provide an exact number as to how many time she was "made to bite WM's thing", she stated that it occurred on more than one occasion. (Exhibit 3, p.3)
10. On December 19, 2016, the RW spoke to A's father who stated that A attended MO's daycare from an early age until she started kindergarten in September of 2016. The father did not report any concerns regarding the level of care A received and did not report that A expressed any fear or unwillingness to attend MO's daycare at any time. (Exhibit 2, p.6)
11. Because A had not made any disclosures of sexual abuse by WM, a SAIN interview with A was not conducted. (Exhibit 3, p.10; Testimony of RW)
12. On December 13, 2016, the RW, along with DEEC Investigator, Mr. F.L., met with the Appellant and MO. Both the Appellant and MO denied that WM entered the daycare area of the home during operating hours. Though no concerns were noted, when the DEEC Investigator interviewed approximately a dozen parents or caretakers whose children were attending or had attended MO's daycare, five reported to have observed WM in the home during drop off or pick up of the children. WM was observed in the kitchen, watching television, or on the computer. (Exhibit 3, p.8; Testimony of RW)
13. Due to the contrary reports made by the parents and caretakers during the DEEC Investigator's interviews, the Department did not find the Appellant or MO to be reliable reporters. (Exhibit 3, p.13)
14. The Department relied on the child's statements when making its determination to support the allegations of neglect of the child by the Appellant. (Exhibit 3, p.12; Testimony of RW)
15. I did not find the Department's reliance on the child's statements to be reasonable. During the SAIN interview the child maintained that on more than one occasion WM exposed his penis to her and A, instructing both to "bite him there" when she attended MO's daycare. The incidences occurred approximately two or three years before the child's first disclosure. However, no evidence was presented that the child expressed fear or appeared unwilling to attend the daycare following the reported incidences. In addition, although the child reported that A was also present, A has never made any disclosures of being sexually abused by WM. As a result, despite the contrary reports made by the Appellant and MO as to WM's presence in the daycare during operating

³ The Sexual Assault Intervention Network is a multi-disciplinary team including the District Attorney, victim-witness advocate, forensic interviewer and the Department. SAIN is a process wherein law enforcement and child advocates work together to streamline the handling of child abuse cases.

hours, without corroborating evidence to support the child's claim, I did not find the Department's reliance on the child's statements when making its determination to be reasonable.

16. On January 30, 2017, pursuant to MGL c. 119, § 51B, the Department supported allegations of neglect of the child by the Appellant. The Department based its decision on information obtained during the 51B response, specifically that OO had misrepresented whether and how frequently WM was present in the daycare portion of the home. (Exhibit 3, p.13; Testimony of RW)
17. After consideration of all the evidence provided, this Hearing Officer finds that the Department did not have reasonable cause to believe that neglect of the child occurred in this instance, and that the Appellant's actions or inactions placed the child in danger or posed substantial risk to her safety or well-being as required by the Department's intake policy when supporting for neglect. (110 CMR 10.05 DCF Protective Intake Policy #86-015, rev. 2/28/16)
18. Therefore, this Hearing Officer further finds that the Appellant's actions did not constitute neglect as defined in its regulations, and its decision was not in compliance with its regulations. (110 CMR 2.00 & 4.32) (See, "Analysis")

Analysis

In order to "support" a report of abuse or neglect, the Department must have reasonable cause to believe that an incident of abuse or neglect by a caretaker occurred.

"Reasonable cause to believe" means a collection of facts, knowledge or observations which tend to support or are consistent with the allegations, and when viewed in light of the surrounding circumstances and credibility of persons providing information, would lead one to conclude that a child has been abused or neglected. (110 CMR 4.32(2)) Factors to consider include, but are not limited to, the following: direct disclosure by the child(ren) or caretaker; physical evidence of injury or harm; observable behavioral indicators; corroboration by collaterals (e.g. professionals, credible family members); and the social worker's and supervisor's clinical base of knowledge. (110 CMR 4.32(2))

"[A] presentation of facts which create a suspicion of child abuse is sufficient to trigger the requirements of s. 51A." Care and Protection of Robert, 408 Mass. 52, 63 (1990) This same reasonable cause standard of proof applies to decisions to support allegations under s. 51B. Id. at 64; M.G.L. c. 119, s. 51B "Reasonable cause" implies a relatively low standard of proof which, in the context of 51B, serves a threshold function in determining whether there is a need for further assessment and/or intervention. Id. at 64

A "caregiver" means a child's (a) parent, (b) stepparent, (c) guardian, (d) any household member entrusted with the responsibility for a child's health or welfare, and (e) any other person entrusted with the responsibility for a child's health or welfare whether in the child's home, a relative's home, a school setting, a day care setting (including baby-

sitting), a foster home, a group care facility, or any other comparable setting. As such, "caretaker" includes (but is not limited to) schoolteachers, baby-sitters, school bus drivers, camp counselors, etc. The "caretaker" definition is meant to be construed broadly and inclusively to encompass any person who is, at the time in question, entrusted with a degree of responsibility for the child. This specifically includes a caretaker who is himself/herself a child (i.e. baby-sitter). (110 CMR 2.00)

"Neglect" is defined as failure by a caretaker, either deliberately or through negligence or inability, to take those actions necessary to provide a child with minimally adequate food, clothing, shelter, medical care, supervision, emotional stability and growth, or other essential care; provided, however, that such inability is not due solely to inadequate economic resources or solely to the existence of a handicapping condition. This definition is *not* dependent upon location (*i.e.*, neglect can occur while the child is in an out-of-home or in-home setting.) (110 CMR 2.00)

To prevail, an Appellant must show by a preponderance of the evidence that the Department's decision or procedural action was not in conformity with the Department's policies and/or regulations and resulted in substantial prejudice to the Appellant. If there is no applicable policy, regulation or procedure, the Appellant must show by a preponderance of the evidence that the Department acted without a reasonable basis or in an unreasonable manner, which resulted in substantial prejudice to the Appellant. (110 CMR 10.23)

When reviewing a support decision, the Hearing Officer may consider information available during the investigation and new information subsequently discovered or provided that would either support or detract from the Department's decision. (110 CMR 10.21(6))

When making its decision to support the allegations of neglect of the child by the Appellant, the Department relied on statements made by the child. However, without any corroborating evidence, the Department's reliance on the child's statements was not reasonable. The child's first disclosure occurred approximately two to three years following the reported incident, at which time the child maintained that on more than one occasion WM exposed his penis to her and her friend, A, and instructed both to "bite him there" when she attended MO's daycare. This abuse was alleged to have occurred in the nap room where presumably other children were in various states between awake and asleep. However, A has never disclosed being sexually abused by WM and no evidence was presented that the child or A had ever expressed fear or appeared unwilling to attend the daycare following the reported incidences.

Despite the Department's conclusion, there was not sufficient evidence to support allegations of neglect of the child by the Appellant, and the Department failed to provide independent evidence to support the child's claim. As a result, the evidence presented was insufficient to demonstrate that the Appellant failed to provide the child with minimally adequate care, and that the Appellant's actions or inactions placed the child in danger or posed a substantial risk to her safety or well-being as required by the

Department's intake policy when supporting for neglect. (Protective Intake Policy 86-015 (revised 2/28/16))

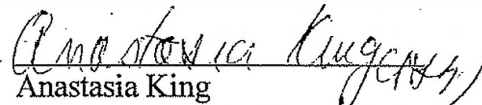

Therefore, based on the totality of the evidence, for reasons cited above, and in the detailed Findings of Fact, the evidence was insufficient to support the Department's determination that the Appellant's actions rose to the level necessary to support the allegations of neglect. A Hearing Officer's decision must be supported by substantial evidence; there must be substantial evidence supporting the Hearing Officer's conclusion that the Department had reasonable cause to believe that neglect occurred in this instance. (Wilson v. Dep't of Soc. Servs., 65 Mass. App. Ct. 739, 745-746 (2006))

The Appellant has shown by a preponderance of the evidence that the Department acted without reasonable basis or in a reasonable manner, and resulted in substantial prejudice to the Appellant.

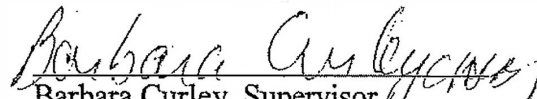

Conclusion

The Department's decision to support the allegation of **neglect** of the child by the Appellant was not made with a reasonable basis and therefore, **REVERSED**. This is the final administrative decision of the Department.

If Appellant wishes to appeal this decision, she may do so by filing a complaint in the Superior Court for the county of Suffolk or for the county in which Appellant lives within thirty (30) days of the receipt of this decision. (See, M.G.L. c.30A, §14). In the event of an appeal, the Hearing Officer reserves the right to supplement the findings.
