

Critical Needs Assistance

FEMA may provide financial assistance to individuals and households who, as a result of the disaster, have immediate or critical needs because they are displaced from their primary dwelling. Immediate or critical needs are life-saving and life-sustaining items including, but not limited to, water, food, first aid, prescriptions, infant formula, diapers, consumable medical supplies, durable medical equipment, personal hygiene items, and fuel for transportation.

Critical Needs Assistance (CNA) is awarded under the Other Needs Assistance provision of the Individuals and Households Program (IHP) and is subject to a cost-share. It is a one-time \$500 payment per household. The State, Territory, or Tribe must request that FEMA authorize CNA in a disaster for specific geographic areas that are expected to be inaccessible for an extended period of time (i.e., seven days or longer). CNA will be provided in the immediate aftermath of the disaster.

Applicants may be eligible for CNA if all of the following apply:

- They have completed a FEMA registration;
- They pass FEMA's identity verification process;
- At registration, they state they have emergency needs for food, medication, gas, shelter, or clothing;
- Their pre-disaster primary residence is located in an area designated for CNA; and
- They are displaced from their pre-disaster primary residence as a result of the disaster.

###

"FEMA's mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from, and mitigate all hazards."
