Re: Food Stamp - 10/1/98 COLA; Report Update

The "FSP-10/98 COLA Cases Requiring Review" report will not be produced. All of the cases on the report this year are error code 5 cases (assistance unit's SUA is prorated or assistance unit is sharing actual utility expenses). Since the SUAs did not change, workers do not have to verify that the prorated SUA amount on file is correct. These cases were automatically reviewed and updated for October benefit issuances on the evening of September 24, 1998. No worker action is required.
